

AtiCase

Designed for places where details matter

Product Overview

AtiCase is a powder-coated steel cover designed to visually integrate a 6 kg fire extinguisher into architecturally refined spaces. It hides visual clutter while ensuring full accessibility in emergencies. Crafted with clean lines and minimalist form, AtiCase is ideal for public areas, modern offices, and private interiors.

MOQ	1 piece

Key Features

- Clean, modern shape with a matte powder-coated finish
- Available in left-side and right-side panel configurations
- Crafted from 2 mm industrial-grade steel
- Nine curated RAL matte color options (custom RAL available upon request)
- Custom laser-cut (pictogram or logo)
- Resistant to UV, scratches, and corrosion
- Easy wall-mounted installation with included guide
- Designed and made in the EU

Color Options

AtiCase is available in 9 carefully selected matte RAL shades. Custom RAL colors available on request. All finishes are powder-coated, resistant to scratches and UV fading, and easy to clean. The matte surface minimizes glare and delivers a clean, confident aesthetic.
